EDITOR'S PREFACE

The text of Khuddakapāṭhapāli presented here is substantially a transliteration of the Sinhala version of the text as printed in the Buddha Jayanti Tripitaka Series, Volume XXIV. In preparing this edition the corrigenda (śuddhi patraya) as printed on page xxx-xxxi of that volume have been taken into account. Other corrections, made by the present editor while preparing this edition of the text, have been noted in the appropriate place.

The original edition of the text included Sanskrit parallels to the Ratanasuttam drawn from Mahāvastu. The transliteration of these parallels as printed in BJT were full of mistakes, and they have been withdrawn from this edition of the text. A corrected version of this material however may be found in a separate document elsewhere on this web site (see [Ratanasuttam](#)).

In the original edition there were many cases where BJT was inconsistent in its use of punctuation. Here an attempt has been made to present a more standardized version of the text in this regard, but as the matter is trivial on the one hand, and extremely numerous on the other, these sort of changes have not been noted.

There is a complete word index to the text, an index to the gāthā first lines, and an index to the metres. This hopefully make reference much easier for those who wish to study the text.
