

Basic Structure of the Pāli Tipiṭaka

compiled by

Ānandajoti Bhikkhu

(July 2008)

Preface

These listings give the basic structure of the Pāli Tipiṭaka in increasing depth showing outline, medium, and greater detail. The material here has been compiled from various sources using the Chaṭṭha Saṅgāyana CD-ROM as the main source of information. As the titles of some of the chapters are different in the various editions there might be some differences from the Pali Text Society edition of the texts, both in naming and numbering.

I have only written out the Sutta names in the case of the Dīgha- and Majjhimanikāyas as there are simply too many to reference in a work like this in the other Nikāyas. I have included 4 pie charts to try to give an overview of the relative size of the Piṭakas and their internal divisions. I hope this work fulfils its function of serving as a basic reference to the Piṭakas.
